- **Berber: Native**

HOBBIES

Swimming, Horseback Riding, Podcast Listening.

An international Applied Computer Science student specializing in AI at Thomas More University. I'm passionate about developing AI-powered systems that solve real problems and add real value to a product, with hands-on experience in NLP, computer vision, and web development. I enjoy taking ideas, turning them into intelligent systems, and seeing them make a difference. Eager to grow as an AI developer by taking on real-world challenges and continuously expanding my skills.

Education

Bachelor in Applied Computer Science – AI

Thomas More Geel, Belgium. 2023 - 2026

- Machine Learning (CV, NLP, Cloude AI), Web Development, Data Analysis & Business Intelligence, Data Engineering.

Specialist Technician Diploma – Digital Infrastructure

Institute of Applied Technology OFPPT Nador Morocco. 2020 - 2023

- Computer Networks & Systems Administration, IT Infrastructure & Maintenance, Network Security Basics, Communication & Team Projects.

High School Diploma

Homman El Fatouaki Nador, Morocco. 2017 - 2020

- Focus on biology, geology, physics and chemistry.

Internship

Smart Toys & Games (Smart NV)

Intern – AI Developer

Kontich, Belgium. February 2026 – May 2026

- Developed a computer-vision app that detects puzzle pieces and generates real-time solving hint

MICMAC Informatique

Intern – Digital Infrastructure

Nador, Morocco. March 2022 – April 2022

- Assisted with installation and repair of computer equipment.

Student Jobs

Car Rental

Nador, Morocco. July 2022 – September 2022

- Delivered cars to customers and ensured required servicing.

Inetum-Realdolmen
For the attention of Coordinatie Schoolen
Bedrijvenlaan 4
2800 Mechelen

2170, Anwerp

About: Application for Internship – LearnPortal project at Inetum-Realdolmen.

Dear Coordinatie Schoolen,

I am writing to express my interest in the **LearnPortal internship** at Inetum-Realdolmen. As a Bachelor student in Applied Computer Science at Thomas More University, I am eager to contribute my skills in software development while further developing my expertise in **.NET**, **databases and cloud solutions**.

Through my studies and projects, I have gained hands-on experience with **C#, ASP.NET Core, SQL, and Entity Framework**, as well as frontend technologies such as **JavaScript, HTML, and CSS.** I am also familiar with Agile/Scrum methodologies and version control with Git, which allows me to collaborate effectively in team-based environments. My academic background and personal projects in web development and AI have taught me how to design scalable solutions and think critically about performance, usability and security.

What excites me most about the LearnPortal project is the opportunity to build a **platform that directly supports knowledge sharing and growth within the company.** I strongly value innovation and continuous learning, and I see this project as an excellent chance to combine my technical skills with my passion for creating impactful digital solutions.

I would welcome the opportunity to further discuss how my background and motivation align with this internship.

Thank you for considering my application. I look forward to the possibility of contributing to the success of the LearnPortal project at Inetum-Realdolmen.

Sincerely,
Ibrahim Afkir

Sarah Steenbergen
Cegeka NV Hasselt
Kempische Steenweg 307
3500 Hasselt

About: Application for Internship – Safety Squad Full Stack Developer

Dear Ms. Steenbergen,

The Safety Squad internship at Cegeka immediately caught my attention because of its innovative approach to building secure, scalable, and user-friendly applications with real social impact. As a **Bachelor student in Applied Computer Science at Thomas More University**, I am eager to contribute my skills while learning from Cegeka's expertise in delivering impactful IT solutions.

During my studies, I have gained a solid foundation in Java, **C#, ASP.NET Core, SQL, and Entity Framework**, along with practical experience in **web technologies such as HTML, CSS, Bootstrap, Tailwind, JavaScript, and frameworks like Laravel, Livewire and Alpine.js.** I also explored **full-stack development and software security**, which aligns closely with the goals of the Safety Squad project. In addition, I worked on projects that required teamwork, Agile collaboration, and problem-solving—skills I am motivated to apply in a professional environment.

What excites me most about this internship is the combination of modernizing API architectures, strengthening platform security, and contributing to mobile development with Angular and Flutter. These challenges perfectly match my ambition to deepen my expertise in full-stack development, cloud integration, and secure software design while contributing to an application that helps people in critical situations.

I would welcome the opportunity to further discuss how my background and motivation align with this internship.

Thank you for considering my application. I look forward to the opportunity to discuss how I can contribute to Cegeka's Safety Squad project.

Sincerely,
Ibrahim Afkir

Yellow Pepper
For the attention of Mr. Dries Marien
Konijnenberg 7
2480 Dessel

About: Application for Internship – Pakske Feed-Importer Project

Dear Mr. Marien,

The internship at Yellow Pepper for developing a smart feed-importer for product data at Pakske immediately caught my attention. The focus on **Laravel, Vue.js, data integration, and dashboarding** aligns closely with both my academic background and my personal interest in building efficient and scalable web solutions.

As a **Bachelor student in Applied Computer Science at Thomas More University,** I have gained experience in **Laravel, PHP, MySQL, and JavaScript frameworks.** In addition, I have worked on projects involving **data integration, API development, and dashboards,** which gave me practical insight into solving real-world problems through technology. With this background, I am eager to further develop my skills and contribute to impactful projects in a professional setting.

What excites me most about this internship is the opportunity to take **ownership of a project**, from designing the interface for feed management to implementing **validation, error detection, and scalable solutions.** I am motivated to contribute both my technical skills and my **problem-solving mindset** to simplify and improve the product feed process, while also learning from the innovative environment at Yellow Pepper.

I would welcome the chance to further discuss how my skills and motivation align with this project and how I can contribute to Pakske's success.

Thank you for considering my application.

Sincerely,
Ibrahim Afkir

Tokheim
For the attention of Ms. Hemmeryckx
Slachthuisstraat 70
2300 Turnhout

About: Application for Internship – Development to a Web-Based Platform

Dear Ms. Hemmeryckx,

The **Development Internship** at **Dover Fueling Solutions** immediately caught my attention because of the opportunity to contribute to **ONE Portal**, your cloud-based web platform that connects multiple digital products. I am especially drawn to this internship because it combines **backend API development** with **frontend UI implementation**, aligning perfectly with my studies and interests as an aspiring full-stack developer.
As a **Bachelor student in Applied Computer Science at Thomas More University**, I have gained strong experience in **C#, SQL Server** and API development, as well as modern web frameworks like **Laravel, React and Alpine.js.** I enjoy building scalable and user-focused web applications and working in collaborative, agile environments where communication and problem-solving are key.

What excites me most about this role is the chance to work on a **real enterprise platform** used across multiple systems while learning from experienced professionals in a global organization. I am eager to contribute my technical background, teamwork mindset, and passion for innovation to your development team.

Thank you for considering my application. I would welcome the opportunity to discuss how I can contribute to **Dover Fueling Solutions' ONE Portal project.**

Sincerely,
Ibrahim Afkir

Wisemen
For the attention of Mr. Joren Vandeweyer
Watertorenstraat 2
3590 Diepenbeek

About: Application for Development Internship

Dear Mr. Vandeweyer,

The Development Internship at Wisemen immediately caught my attention because of the unique opportunity to shape the content of the internship based on my goals and interests. I am particularly drawn to your open culture and the variety of projects, ranging from web development to AI and IoT, which aligns closely with my academic background and personal ambition to grow as a versatile developer.

As a Bachelor student in Applied Computer Science at Thomas More University, I have built a foundation in web development, application development, and data-driven solutions. My skills include working with **Laravel, PHP, JavaScript frameworks (React, Alpine.js), C#, and Java**, as well as designing APIs, dashboards and database models. Beyond the technical side, I value collaboration and problem-solving, and I enjoy contributing to team projects where creativity and quality go hand in hand.

What excites me most about Wisemen is not only the chance to work with a world-class digital team, but also the emphasis you place on growth, flexibility, and culture. I am eager to bring my motivation, technical background, and curiosity to your team, while further developing my expertise in new technologies and contributing to meaningful digital experiences.

I would welcome the opportunity to further discuss how my skills and drive can contribute to Wisemen's projects.

Thank you for considering my application.

Sincerely,
Ibrahim Afkir

Pension Architects
For the attention of Mr. Ivan Eulaers
Blarenstraat 36
2980 Zoersel

About: Application for Internship – API-uitbreidingen ter voorbereiding van nieuwe frontend

Dear Mr. Eulaers,

The internship opportunity at Pension Architects for API development immediately caught my attention. The focus on designing and optimizing APIs to support a renewed frontend aligns closely with both my academic background and my motivation to deepen my backend and web development skills.

As a Bachelor student in Applied Computer Science at Thomas More University, I have gained experience with **Java, PHP, C#, Laravel, and JavaScript frameworks, as well as databases (MySQL, Entity Framework)** and **RESTful API development.** I have worked on projects involving data integration, API design, and dashboards, where I learned how to transform technical requirements into reliable and scalable solutions. In addition, my experience with **HTML, CSS, Bootstrap, Tailwind and Alpine.js** gives me the flexibility to collaborate effectively with frontend developers.

What excites me most about this internship is the chance to work on **real API extensions, contribute to documentation (Swagger),** and apply **test-driven development practices** in a professional context. I am motivated to bring my technical skills, problem-solving mindset, and enthusiasm for clean, maintainable code to the Pension Architects team.

I would welcome the opportunity to discuss how I can contribute to this project while further developing my expertise in API development and backend engineering.

Thank you for considering my application.

Sincerely,
Ibrahim Afkir

About: Application for Internship – JavaScript Developer

Dear Studio Hyperdrive Team,

The JavaScript Developer internship at Studio Hyperdrive immediately caught my attention. The focus on building state-of-the-art digital experiences with JavaScript technologies perfectly aligns with my skills and my ambition to grow as a full-stack developer.

As a Bachelor student in Applied Computer Science at Thomas More University, I have built a solid foundation in **JavaScript, HTML, CSS and Node.js,** complemented by experience with frameworks such as **React, Laravel, Livewire and Alpine.js.** I have also worked on projects involving **APIs, dashboards and web applications,** where I combined backend logic with user-friendly interfaces. These experiences strengthened my ability to collaborate effectively in a team and to turn technical requirements into reliable, scalable solutions.

What excites me most about this internship is the opportunity to contribute both to **student-driven projects** and to **real client assignments.** The idea of working in a professional team while also being encouraged to bring in my own creativity and ideas is very motivating. I am eager to apply my problem-solving skills, technical knowledge, and enthusiasm for clean, maintainable code to help create impactful digital solutions at Studio Hyperdrive.

I would welcome the opportunity to further discuss how my background and motivation align with this internship.

Thank you for considering my application.

Sincerely,
Ibrahim Afkir

Summer Bash Events
For the attention of Ms. Yana Maas
Korte Lozanastraat 26
2018 Antwerpen

About: Application for Internship – React Developer

Dear Ms. Maas,

The React Developer internship at Summer Bash Events immediately caught my attention. The opportunity to work on the front-end and back-end of a booking platform used by thousands of customers each year perfectly matches my academic background and enthusiasm for building impactful digital solutions.

As a Bachelor student in Applied Computer Science at Thomas More University, I have developed solid skills in **React, JavaScript, TypeScript, HTML/CSS and Node.js,** alongside backend experience with **APIs and databases.** I have worked on projects involving full-stack web development, dashboards, and API integrations, which taught me how to design scalable, user-friendly applications. My problem-solving mindset, combined with teamwork experience in Agile projects, allows me to contribute effectively in collaborative environments.

What excites me most about this internship is the chance to contribute to a live product that enhances user experience for thousands of people. I am particularly motivated by the opportunity to strengthen my expertise in React, TypeScript, and API integration, while also contributing to backend development when needed.

I would welcome the chance to discuss how my skills and motivation align with this role and how I can contribute to the success of Summer Bash Events' platform.

Thank you for considering my application.

Sincerely,
Ibrahim Afkir

Soudal
For the attention of the Hiring Team
Everdongenlaan 18-20
2300 Turnhout

About: Application for Internship – Event Tool Soudal

Dear Ms. Sanders,

I am writing to express my interest in the internship opportunity at Soudal to develop the Event Tool web application. The focus on creating a structured planning system with role-based access and booking workflows strongly aligns with both my technical background and my motivation to grow as a full-stack developer.

As a Bachelor student in Applied Computer Science at Thomas More University, I have developed practical experience with C#, .NET, and web application development, as well as database integration and RESTful APIs. My coursework and projects have taught me how to design structured applications that combine reliability, scalability, and user-friendly functionality.

What excites me about this internship is the opportunity to build a real-world tool that improves efficiency and coordination within an international company. I am eager to apply my skills to this project while continuing to learn about secure access workflows, role management, and cloud-based deployment.

Thank you for considering my application. I would appreciate the opportunity to discuss how I can contribute to Soudal's digital initiatives.

Sincerely,
Ibrahim Afkir

About: Application for Internship – Scrabble Competition App

Dear Coordinatie Schoolen,

The internship opportunity at Inetum-Realdolmen for the Scrabble Competitie App immediately caught my attention. The focus on developing and optimizing a real-time web application aligns perfectly with both my academic background and my personal interest in building interactive and efficient software solutions.

As a Bachelor student in Applied Computer Science at Thomas More University, I have gained experience with **C#, .NET, JavaScript and RESTful API development.** I have also worked with **frontend frameworks such as React,** which taught me how to create dynamic and user-friendly web interfaces. Through various academic projects, I've learned to translate technical requirements into scalable solutions while collaborating effectively within a team using **Agile and Scrum methodologies.**

What excites me most about this internship is the opportunity to further develop my full-stack skills while contributing to a project that combines real-time communication, usability, and performance. I'm eager to apply my technical knowledge, problem-solving mindset, and enthusiasm to support Inetum-Realdolmen's innovative environment.

Thank you for considering my application. I would welcome the opportunity to discuss how I can contribute to your team and the ongoing development of the Scrabble Competitie App.

Sincerely,

Remmicom
For the attention of Mr. Jan Buelens
Corbeillestraat 72
2235 Westmeerbeek

About: Application for Internship – Angular App with .NET Backend

Dear Mr. Buelens,

The **internship opportunity at Remmicom** for developing an **Angular web application with a .NET backend** immediately caught my attention. The chance to work on a **complete application from analysis to delivery** perfectly matches both my **academic background** and my **enthusiasm for web development.**

As a **Bachelor student in Applied Computer Science at Thomas More University**, I have gained hands-on experience with **C#, .NET,and JavaScript frameworks,** particularly **React**. I have built several projects that involved **frontend-backend integration, API development, and database management.** These experiences have strengthened my understanding of how to create **scalable and user-friendly web applications.** While my background is mainly in React, I am eager **to expand my skills and learn Angular** during this internship, as I believe both frameworks share many core concepts.

What excites me most about this internship is the opportunity to **independently develop a complete web application** under **professional guidance** — applying the **full software development lifecycle** while learning from **experienced developers.**

I would be delighted to further discuss how my **skills and motivation** align with this internship and how I can **contribute to your team.**

Thank you for considering my application.

Sincerely,
Ibrahim Afkir

WAGO
For the attention of Ms. Niki Claes
Excelsiorlaan 11
1930 Zaventem

About: Internship Application – Secure Access Control System

Dear Ms. Claes,

The internship opportunity at WAGO for developing a **Secure Access Control System** immediately caught my attention. The combination of **web-based front-end and back-end development, data security** and **real-world implementation** perfectly aligns with my technical background and interests.

As a **Bachelor student in Applied Computer Science at Thomas More University,** I have gained solid experience in **Laravel (PHP), MySQL and web development frameworks**. I have worked on several projects involving **authentication systems, role-based access and data management,** which taught me how to design applications that are both secure and **user-friendly**. I enjoy translating functional requirements into structured and maintainable solutions that work reliably in real environments.

What excites me most about this internship is the opportunity to build upon an existing Laravel proof of concept and contribute to a project that directly enhances building security. I am eager to apply my skills in backend and frontend development while gaining deeper experience with system integration and secure database handling.

I would be delighted to further discuss how I can contribute to this project and support WAGO in developing an efficient and secure access control solution.

Thank you for considering my application.

Waldon – AG Servicing
For the attention of Mr. Arno Vranken
Emile Jacqmainlaan 53
1000 Brussels

About: Application for Frontend Software Developer Internship

Dear Mr. Vranken,

The **Frontend Software Developer Internship** at **Waldon** immediately caught my attention because of your **mission to transform workplace wellbeing through technology.** I am particularly interested in joining a **young and dynamic startup** like yours, where I can combine my **technical skills** with **creativity** and contribute to a meaningful **SaaS platform.**

As an **international Bachelor student in Applied Computer Science** at **Thomas More University**, I have developed strong experience in **HTML, CSS, JavaScript** and frameworks like **Laravel, Alpine.js** and **React**. I enjoy turning ideas into **interactive and user-friendly interfaces**, and I'm also curious about **UX design** and **continuous improvement**. Beyond the technical side, I value **teamwork** and **open communication.** I enjoy collaborating with others to solve challenges efficiently.

What attracts me most to Waldon is the opportunity to grow in a **hands-on environment** that encourages **innovation** and **learning**. I'm eager to contribute to the rollout and improvement of your **wellbeing platform**, while learning from your experienced team and bringing my **motivation and problem-solving mindset** to your projects.

Thank you for considering my application. I would appreciate the opportunity to further discuss how I can contribute to **Waldon's goals.**

Zaventem

About: Application for Java/.NET Software Engineer Internship

Dear Brainsquare Team,

The **Java/.NET Software Engineer Internship** at **Brainsquare** immediately caught my attention because of its hands-on approach and the opportunity to work within a real software engineering team. I am especially drawn to Brainsquare's **people-first culture** and its commitment to turning internships into meaningful learning experiences that combine **team collaboration, technical growth and real project responsibility.**

As a **Bachelor student in Applied Computer Science** at **Thomas More University**, I have gained solid experience in **C#, .NET Java, SQL** and **web frameworks** such as **React, Laravel and Alpine.js**. My academic and project work has given me a strong foundation in **backend and frontend development,** as well as in working with **APIs, agile tools and version control.** I enjoy solving challenges through code and learning from team collaboration where ideas and improvement go hand in hand.

What excites me most about joining **Brainsquare** is the chance to **contribute to a live enterprise project** while learning from experienced professionals in an agile environment. I am eager to apply my technical background, proactive mindset, and passion for continuous learning to support your development team and grow as a full-stack developer.

Thank you for considering my application. I would welcome the opportunity to discuss how I can contribute to **Brainsquare's ongoing projects** and future goals.

Smart NV
For the attention of Mr. Wouter Caeldries
Kontich

About: Application for AI Developer Internship – SmartGames

Dear Mr. Caeldries,

The **AI Developer Internship** at SmartGames immediately caught my attention because of its creative application of **Artificial Intelligence** and **Computer Vision** within the world of **educational and interactive games**. I am especially drawn to SmartGames' mission of combining technology, logic, and learning to create engaging experiences for all ages.

As an international **Applied Computer Science – Artificial Intelligence** student at **Thomas More University,** I have gained solid experience in **Python, OpenCV, Machine Learning, Computer Vision and NLP.** My academic and project work has given me a strong foundation in developing intelligent models, analyzing visual data, and integrating AI solutions into real-world applications. I enjoy exploring how AI can make systems smarter, more intuitive and more interactive.

What excites me most about joining SmartGames is the opportunity to apply my **AI and Computer Vision** skills to innovative projects that connect **technology and creativity.** I am eager to contribute to your digital team, collaborate with designers and developers, and learn how AI can enhance gameplay and educational value in hybrid environments.

Thank you for considering my application. I would welcome the opportunity to discuss how I can contribute to **SmartGames' AI-driven projects** and help bring intelligent, playful experiences to life.

About: Application for Data & Insights Internship

Dear Mr. Francis,

The Data & Insights Internship at IO Digital immediately caught my attention because of its focus on **AI-driven automation, data analysis, and digital innovation.** The idea of contributing to an intelligent platform that automates Google Ads campaigns perfectly aligns with my passion for applying artificial intelligence to real-world business problems.

As an **international student in Applied Computer Science – Artificial Intelligence at Thomas More University,** I have developed strong skills in **Python, machine learning, APIs, and data analytics.** I also have hands-on experience with **web technologies, databases, and cloud concepts,** which I believe are essential for this role. I enjoy combining data and automation to create efficient, smart, and scalable solutions.

What excites me most about joining IO Digital is the opportunity to work in a **data-focused, agile team** that blends **technology and marketing intelligence.** I'm eager to contribute my technical knowledge, problem-solving mindset, and enthusiasm for continuous learning to help improve and automate your digital processes.

Thank you for considering my application. I would be glad to discuss how I can support the Data & Insights team and contribute to IO Digital's innovative projects.

H.Essers
For the attention of Mr. Thierry De Block
Genk

About: Application for Full-Stack Internship – CData Dashboard

Dear Mr. De Block,

The Full-Stack Internship for the CData Dashboard – Real-Time Monitoring and Visualization Tool immediately caught my attention because it combines data visualization, backend logic, and real-time system monitoring — three areas that align perfectly with my technical interests and background.

As an international Bachelor student in **Applied Computer Science – Artificial Intelligence at Thomas More University,** I have gained solid experience in **React, Java, SQL Server** and **Python,** as well as working with frameworks such as **Laravel** and **.NET**. I enjoy designing interactive dashboards, developing efficient backend services, and ensuring data flows smoothly between systems. My academic and project work has also familiarized me with **APIs, version control (Git), and agile workflows,** which I apply to keep projects structured and collaborative.

What excites me most about joining H.Essers is the opportunity to work on a **real-time enterprise-level dashboard** that combines modern web technologies with performance-driven backend design. I'm eager to apply my skills and curiosity to contribute to this project while learning from your experienced development team.

Thank you for considering my application. I would welcome the opportunity to discuss how I can contribute to your ongoing software initiatives at H.Essers.

Zorg en Welzijn – Onderzoeksgroep Mobilab & Care
For the attention of Ms. Sofie Verhaegen
Geel

About: Application for MLOps Internship – iCARE4CVD Project

Dear Ms. Verhaegen,

The MLOps internship within the iCARE4CVD project immediately caught my attention because it combines two of my strongest interests — **AI development and software engineering.** The idea of contributing to a research project that applies **machine learning and automation** to healthcare aligns perfectly with both my technical background and my motivation to use technology for real social impact.

As an international Bachelor student in **Applied Computer Science – Artificial Intelligence at Thomas More University**, I have developed a strong foundation in Python, Java, and SQL, as well as experience in **Machine Learning, Computer Vision, and Natural Language Processing.** My academic work has also given me familiarity with **APIs, containerization concepts, and version control (Git),** which I believe are valuable in an MLOps setting.

I am especially motivated by the opportunity to explore tools such as **Kubernetes**, **KubeFlow**, and **AI model integration** within a real-world research environment. I enjoy problem-solving, documenting my work carefully, and collaborating with multidisciplinary teams — all of which are crucial for this project.

Thank you for considering my application. I would be very excited to contribute to Mobilab & Care's ongoing AI initiatives and to learn from the practical challenges of deploying machine learning models in production.

Sincerely,

Domino's Pizza Schoten
Attn: Store Manager
Antwerp

About: Application – Student Delivery Driver

Dear Store Manager,

I am applying for the **student delivery driver position at Domino's Schoten.** I am currently an Applied Computer Science student at Thomas More University and I am looking for a weekend student job alongside my studies.

I enjoy being on the road and working with customers. I am reliable, punctual, and I always try to represent the company in a friendly and professional way. I am also willing to help in the store between deliveries when needed.

I have held a **driving license for 8 years** and I am available to deliver by bike, scooter, or car. My availability is mainly during weekends (Saturday and Sunday), and I can also work on weekend evenings.

I would be happy to discuss my application in a short interview. Thank you for your time and consideration.

Sincerely,
Ibrahim Afkir
